

BRIXON 2026

About

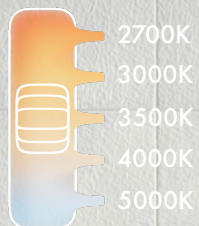

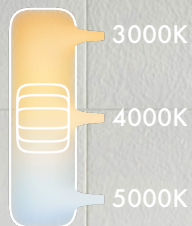

BRIXON Lighting brings lasting value and restrained beauty into your home. We create fixtures where thoughtful design meets true craftsmanship, blending clean function with a quiet aesthetic.

More than just a light source, each piece is crafted to capture the right light for the moment, by revealing subtle beauty in your everyday routine.

BRIXON makes lighting fit effortlessly into your life, turning the creation of a beautiful home into an effortlessly graceful – and wonderfully pleasant – process.

Built-in color temperature adjustable switch

Our vLED fixtures with built-in switches that let you easily adjust the color temperature from warm white to daylight. The Correlated Color Temperature (CCT) functionality allows you to effortlessly create the perfect ambiance to complement your living environment.
